Mhisi's Clan

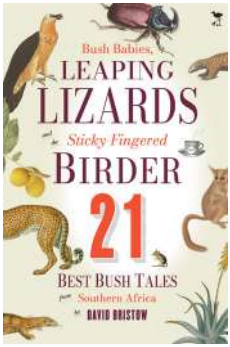

A Hyena's Tale of Survival

JOH HENSCHEL

Born into the powerful Mavumbye Clan, young spotted hyena Mhisi must learn the complex rules of clan life under the watchful guidance of formidable female leaders. Mhisi encounters rival clans, predators, shifting alliances and devastating loss. As the Mavumbye Clan begins to collapse, can Mhisi survive the challenges ahead and build a new home?

Drawing on years of close observation and scientific research of the hyenas in the Kruger National Park, wildlife conservationist Joh Henschel brings the hidden world of spotted hyenas to life.

The First Safari

Searching for François Levaillant

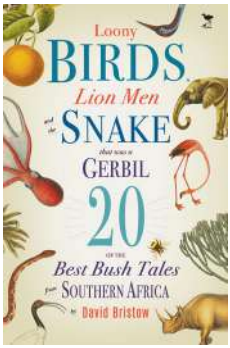

A Revised Edition

IAN GLENN

François Levaillant was the first and greatest South African birder and the first major figure of modern ornithology. South African researcher Ian Glenn searched for Levaillant's travel notebooks and the fate of his collection to solve the mysteries of Levaillant's life.

The revised second edition reflects new information and research on Levaillant's descendants; the provenance of the Paris bloubok; Levaillant's use of illustrations and his collaboration with Colonel Robert Gordon as a crucial part of his development as an ornithologist.

Tree Encounters

Portraits and Stories from South Africa

BRITA LOMBA AND RUTH PARKER

Tree Encounters pays tribute to our oldest living companions – the majestic trees that grace South Africa's wild and urban spaces, nourishing our intricate, often fragile ecosystems. Writers, conservationists and tree lovers of all stripes offer intimate tales of their encounters with these extraordinary beings: from forest giants, mighty baobabs and shade-giving childhood companions to urban landmarks, remote desert dwellers and storied vines. The branches of this diverse selection bear rich fruits for readers with a passion for nature, history or photography. *Tree Encounters* is a moving homage to these quiet, powerful mainstays of the natural world – and a compelling plea for their protection.

Rhino Revolution

Searching for New Solutions

CLIVE AND ANTON WALKER

How is South Africa going to sustain the cost of securing rhino while the belief continues to persist that the enemy lies elsewhere in Southeast Asia? The Walkers believe that the problem actually lies in South Africa's own backyard. This book discusses corruption and the criminal justice system, the need for more community engagement and the costs of protection. It also looks at how far we have come since the rhino wars in the 1980s and the rhino trade debate.

A Rhino in my Garden

Love, Life and the African Bush

CONITA WALKER

Conita Walker tells the story of the love match that lured her from the world of international air travel to plunge, somewhat naively, into the life of a conservationist. Conita's life begins on a remote missionary station but she eventually finds her true mission in the rescue and hand-rearing of black and white rhino orphans. There was a baby hippo to rescue and re-wild too, conservation organisations to found and support, wilderness battles to fight, but it was the rhinos that became her life's work.

978-1-4314-2595-2 | Trade Paperback | World Rights | 235x155mm | 296pp | 2017

Running Wild

The Story of Zulu, an African Stallion

DAVID BRISTOW

Running Wild is an African story for all ages, about Zulu, who gets lost during a storm but is found years later, not only alive and well, but running as the lead stallion of a herd of wild zebras. It is a tale of resilience, of courage and endurance, a book that will uplift, enrich and warm every lover of the African bush.

Beat about the Bush

Mammals and Birds Revised & Updated

TREVOR CARNABY

In 2005, when the first *Beat about the Bush* was published, it was an instant success and everyone wanted more. Now, in response to overwhelming popular demand, Trevor has completely revised and updated the original favourite comprehensive book.

978-1-4314-0853-5 | Paperback | World Rights | 235x165mm | 296pp | 2017

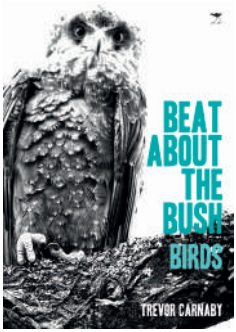

Beat about the Bush

Mammals

TREVOR CARNABY

This book follows in the footsteps of its immensely popular predecessor, *Beat about the Bush: Mammals & Birds*. This expanded version has been revised to cover mammals in a more comprehensive manner with updated classifications, new questions and answers, a more user-friendly format and more than 600 full-colour photographs.

978-1-77009-240-2 | Paperback | World Rights | 235x165mm | 376pp | 2017

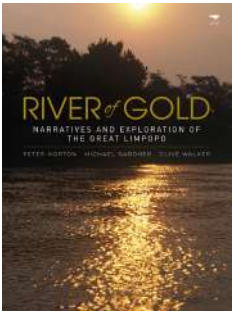

Beat about the Bush

Birds

TREVOR CARNABY

The Beat about the Bush series answers all those everyday questions that are prompted by visits to the bush. It fills the gap in exisiting literature and field guides alike, complemented by more than 900 full-colour photographs. Although details are given on bird identification and all the bird groups of southern Africa are covered in a very informative 'Did you know' section, this work can more appropriately be described as a behavioural guide.

Between the Tides

In Search of Sea Turtles

GEORGE HUGHES

Much can be learned about the condition of the planet's environment by looking at sea turtles. They have existed for over 100 million years, and they travel throughout the world's oceans. Suddenly, however, they are struggling to survive – largely because of things people are doing to the planet's oceans and beaches. If, however, we learn from our mistakes and begin changing our behaviour, there is still time to save sea turtles from extinction.

Voices from the Forest

Celebrating Nature and Culture in Xhosaland

TONY DOLD AND MICHELLE COCKS

Voices from the Forest is a fascinating book, which explores the journey of celebrating the link between people and nature. The book reveals how plants, animals and landscapes are profoundly reflected in Xhosa language, stories, poetry, religious rituals, healing practices and the everyday customs that define Xhosa culture.

Hyena Nights & Kalahari Days

GUS AND MARGIE MILLS

Hyenas have a bad reputation and are misunderstood by most people. Until recent years, many wildlife publications used words like freak, stupid, demented and ungainly to describe hyenas, but in this book Gus and Margie Mills allow the reader to see these intriguing animals for what they really are: intelligent, powerful, even beautiful.

A Delight of Owls

African Owls Observed

PETER STEYN

Owls, being highly specialised nocturnal predators, perfectly adapted for their life in darkness, are difficult to study, and it requires a special blend of enthusiasm and masochism to sit up through the 'vast dead and middle of the night' photographing and observing them. This classic book deals with the twelve species of owls found in southern Africa.

Saving the Zululand Wilderness

An Early Struggle for Nature Conservation

DONALD P MCCRACKEN

Within a generation, the wilderness of Zululand, with its spectacular array of mammals, birds and plants, came near to extinction. This is the saga of that decline and of the heroic and successful attempt to preserve them.
